

Afghanistan Research Assignment 1

1. Open the link to the CIA World Factbook by going to <https://www.cia.gov/library/publications/the-world-factbook/>
2. Using the navigation bar to the left on the screen scroll to Afghanistan and click on the link for it. A map and long lists of facts will appear on the right side of the screen.
3. Scroll down the list of facts until you come to the life expectancy facts.
4. Make a chart with four columns across and four rows down. Label the top of the far left column Afghanistan.
5. In the column on the far left side of the graph you have created note the following facts about Afghanistan: a) births per thousand. b) infant mortality rate, c) life expectancy for men, and, d) life expectancy for women. In addition you must select two additional quality of life indicators that you will research for all four countries.
6. In the next three columns list the same information for the United States, any nation in Europe, and any nation in Asia.

| | Afghanistan | United States | European Country | Asian Country |
|----------------------------------|--------------------|----------------------|-------------------------|----------------------|
| Births per 1000 | | | | |
| Infant mortality | | | | |
| Life expectancy for men | | | | |
| Life expectancy for women | | | | |

7. Write a 3 or 4 sentence summary about what may derive about the quality of life in Afghanistan and how it compares to the other nations in your study from the above information.
