

Matter Poster

With your table group (3-4 people) – come up with an illustration or flow chart that explains the notes we just took. There are some paths that connect words and concepts together, your job is to find those connections and make them flow. Examples and illustrations will help the overall look and flow of the poster. You may want to rough draft this on a smaller sheet before transferring to a larger sheet. These will be posted on the walls so they should be readable and neat.

Words:

Matter, Pure substance, element, compound, molecule, mixture, heterogeneous, immiscible, miscible, homogeneous, solution, suspension, colloid, distillation and filtration
